## Feature Job

Our feature job for this issue is the **Coleman-Talley Law Office**. JCI General Contractors served as the general contractor, BFB Gladwin Architects provided the architectural design, and Electrical Design Consultants were the Electrical Engineers for the law firm's office complex in downtown Valdosta, GA. JCI's management team consisted of Jason Crosby - Project Manager and Rob Jones - Superintendent. Ace's project team consisted of **Matt Vollrath** - Project Manager, **Eric Uneless** - Superintendent

and **William Kenyon** - Estimator. Other Ace employees that worked on the project were **Alberto Carlos, Andres Felipe, Massey Hampton, John Herring, Ben Odell, Lynn Pattillo, Joey Perullo, Ricky Marr, Stephen Ruttschaw, Will Steedley, Rodney Thomas, Zane Wisenbaker, Jeff Wray and Miguel Zapata**. Also deserving recognition for contributing to the success of this job is the **Fabrication, Design & Engineering Team**.

This unique project consisted of demolition and new construction of 22,500 square feet of interior space of two adjoining buildings: 109 South Ashley Street (four stories) and 111 South Ashely Street (three stories) as well as major improvements to the exteriors of both. The interior build-out utilized many of the existing exposed timber beams, wood floors and ceilings to create a new and updated look while retaining the historical features. The two buildings were constructed in the early 1900's and have been the home to many Valdosta businesses throughout their 115+ years.

Ace's contributions to the project included all new lighting and power panels, light fixtures, fire alarm system, motion sensors and other improvements.

Ace Electric, Inc. would like to thank JCI General Contractors for the opportunity to work together on this project and we congratulate Coleman-Talley on their new Valdosta complex.
