

Feature Job

Our Feature Job this month is the **Gulfstream Product Support Distribution Center** located in Savannah, Georgia. E.E. Reed served as the general contractor for the project. The management team consisted of Curtis Rakosi, E.E. Reed's Project Manager, Chuck Simmons, E.E. Reed's Superintendent, **Corey Hinson**, Ace's Project Manager and **Matt Erickson**, Ace's Superintendent. Ace's estimator was **Zach Deal**. This large, fast-track project also required the assistance of most of the field staff of the Statesboro Division.

The Gulfstream PSDC is 405,868 square feet with 64,000 square feet of administrative offices for logistic personnel. In just five short weeks, Ace installed over ten miles of underground conduit for feeder and branch circuitry. The overhead portion of the project was completed in approximately 20 weeks. The aggressive, six-month construction schedule was achieved and as a result, Ace is now a preferred subcontractor to Gulfstream.

Ace Electric, Inc. would like to thank **E. E. Reed** for the opportunity to work with them and congratulates Gulfstream on their new facility.
