Feature Job

Our feature job for this issue is the partial renovation of the **Synnex Corporation** facility in Olive Branch, Mississippi. **Forcum Lannom Contractors, LLC.** provided the architectural

and general contractor services for the project. Forcum Lannom's management team consisted of Randall Rhodes - Architect, Paul Perkins - Project Manager and Jerry Hamm - Superintendent. Ace's project team consisted of **Ken McNabb** - Project Manager, **Collin Rhodes** - Superintendent and **Nick Lisin** - Estimator. Other Ace employees that worked on the project were **Steven Baker, Rosevelt Clifton, Scotty Muse, Candace Pratt, Ashley Rhodes, Natalie Rhodes, Ricky Roofner** and **Al Travelstead**. **Bobby Watford** and the **Ace Fabrication, Design & Engineering Team** also played a big part in the success of the job.

The project was a renovation of 357,000 square feet of the existing one million square foot facility. The renovated space includes 2,000 square feet of administrative offices, a 15,000 square foot burn-in area, a 15,000 square foot mechanical mezzanine and 40,000 additional square feet for product assembly and testing. The electrical scope of work for the renovation included four 4,000-amp service entrances and switchboards, the installation of 16 800-amp busways in the burn-in area for computer server testing and new lighting throughout.

Ace Electric, Inc. would like to thank Forcum Lannom for the opportunity to work together on another great project and we congratulate the Synnex Corporation on their newly renovated facility.
